Colleen and Melanie, I spoke with the consultant and we agreed that they will provide documentation regarding whether the wetland located in the NE corner of the project site, and extending onto adjacent property is regulated. They referenced a 2010 letter from DEQ, allegedly stating the wetland was not regulated. Since these determinations are good for only three years, they must provide documentation for a new determination. Once the wetland issue is settled, I will request the remainder of the information included in the draft documentation I sent you earlier today for review, plus whatever you determine needs to be added.

They have been made aware of our processing deadline and options. Thanks.
